

## Advanced Circuits' Capabilities

### Material

#### FR-4

|              |           |
|--------------|-----------|
| Standard FR4 | 40 Layers |
|--------------|-----------|

|             |           |
|-------------|-----------|
| Isola FR406 | 40 Layers |
|-------------|-----------|

#### Halogen Free

|                   |           |
|-------------------|-----------|
| Isola Green Speed | 40 Layers |
|-------------------|-----------|

|                       |           |
|-----------------------|-----------|
| Ventec VT-441, VT-447 | 40 Layers |
|-----------------------|-----------|

#### RoHS

|              |           |
|--------------|-----------|
| ITEQ IT-180A | 30 Layers |
|--------------|-----------|

|             |           |
|-------------|-----------|
| Isola 185HR | 30 Layers |
|-------------|-----------|

|             |           |
|-------------|-----------|
| Isola 370HR | 40 Layers |
|-------------|-----------|

|                             |           |
|-----------------------------|-----------|
| Isola IS410 (CAF Resistant) | 40 Layers |
|-----------------------------|-----------|

|                         |           |
|-------------------------|-----------|
| Isola FR408 and FR408HR | 40 Layers |
|-------------------------|-----------|

|                 |           |
|-----------------|-----------|
| Isola I-TERA MT | 40 Layers |
|-----------------|-----------|

|                |           |
|----------------|-----------|
| Isola BT-IS620 | 30 Layers |
|----------------|-----------|

|                |           |
|----------------|-----------|
| Nelco BT-N5000 | 30 Layers |
|----------------|-----------|

|               |           |
|---------------|-----------|
| Nelco 4000-29 | 40 Layers |
|---------------|-----------|

|                        |           |
|------------------------|-----------|
| Nelco 4000-13 and 13SI | 40 Layers |
|------------------------|-----------|

|                          |           |
|--------------------------|-----------|
| Nelco 4000-13EP and EPSI | 40 Layers |
|--------------------------|-----------|

|                             |           |
|-----------------------------|-----------|
| Isola IS415 (CAF Resistant) | 40 Layers |
|-----------------------------|-----------|

|           |           |
|-----------|-----------|
| Polyimide | 40 Layers |
|-----------|-----------|

|               |           |
|---------------|-----------|
| Cyanate Ester | 20 Layers |
|---------------|-----------|

#### RF Materials

|                    |                                  |
|--------------------|----------------------------------|
| Rogers 3000 Series | Max. 20 lyr. FR-4 w/ RO3000 Caps |
|--------------------|----------------------------------|

|                                    |           |
|------------------------------------|-----------|
| Rogers 4000 Series (4003 and 4350) | 20 Layers |
|------------------------------------|-----------|

|                  |          |
|------------------|----------|
| Rogers 5870/5880 | 8 Layers |
|------------------|----------|

|                      |          |
|----------------------|----------|
| Taconic RF Materials | 2 Layers |
|----------------------|----------|

|                |           |
|----------------|-----------|
| Isola Astra MT | 40 Layers |
|----------------|-----------|

|               |           |
|---------------|-----------|
| Isola Tachyon | 40 Layers |
|---------------|-----------|

#### Advanced RF Materials

|                          |          |
|--------------------------|----------|
| Nelco 9000 Series (PTFE) | 2 Layers |
|--------------------------|----------|

|                    |          |
|--------------------|----------|
| Rogers 6000 Series | 4 Layers |
|--------------------|----------|

|                    |          |
|--------------------|----------|
| Rogers 5000 Series | 2 Layers |
|--------------------|----------|

|  |           |
|--|-----------|
| Arlon Diclاد 880, AD300A, CuClad 250 & 233, CTLE | 10 Layers |
|--|-----------|

|                                       |           |
|---------------------------------------|-----------|
| Arlon Genclad 280, LX250, GYN 2.17 Dk | 10 Layers |
|---------------------------------------|-----------|

#### Expanded Materials Used For Signal Integrity, Advanced HDI, and/or Stacked Microvias

|                     |     |
|---------------------|-----|
| Panasonic Megtron 6 | Yes |
|---------------------|-----|

|             |     |
|-------------|-----|
| Zeta Lam SE | Yes |
|-------------|-----|

|  |     |
|--|-----|
| 3M ECM (Embedded Capacitance Material) | Yes |
|--|-----|

|          |                |
|----------|----------------|
| ROHACELL | Yes (12 layer) |
|----------|----------------|

|                     |     |
|---------------------|-----|
| Rogers 2929 Bondply | Yes |
|---------------------|-----|

|                             |     |
|-----------------------------|-----|
| Arlon 6700 and 6250 Bondply | Yes |
|-----------------------------|-----|

### Maximum Useable Panel Area

|                     |                |
|---------------------|----------------|
| For 12" x 18" Panel | 10" x 16" **** |
|---------------------|----------------|

|                     |                  |
|---------------------|------------------|
| For 18" x 24" Panel | 16.6" x 22" **** |
|---------------------|------------------|

|                     |              |
|---------------------|--------------|
| For 18" x 27" Panel | 16" x 25" ** |
|---------------------|--------------|

|                     |             |
|---------------------|-------------|
| For 18" x 32" Panel | 16" x 30" * |
|---------------------|-------------|

|                     |             |
|---------------------|-------------|
| For 18" x 36" Panel | 16" x 34" * |
|---------------------|-------------|

|                     |             |
|---------------------|-------------|
| For 18" x 42" Panel | 16" x 40" * |
|---------------------|-------------|

|                     |               |
|---------------------|---------------|
| For 21" x 24" Panel | 19" x 22" *** |
|---------------------|---------------|

|                     |              |
|---------------------|--------------|
| For 21" x 60" Panel | 18" x 58" ** |
|---------------------|--------------|

\* Up to 8 layers / \*\* Up to 16 layers / \*\*\*Up to 30 layers / \*\*\*\* Up to 40 layers

### Special Products/Unique Capabilities

|              |              |
|--------------|--------------|
| Heavy Copper | Up to 20 oz. |
|--------------|--------------|

|           |           |
|-----------|-----------|
| Heatsinks | Available |
|-----------|-----------|

|            |           |
|------------|-----------|
| Backplates | Available |
|------------|-----------|

|                           |           |
|---------------------------|-----------|
| 2 Layers up to 37" x 120" | Available |
|---------------------------|-----------|

|                       |           |
|-----------------------|-----------|
| ROHACELL Foam Bonding | Available |
|-----------------------|-----------|

|                            |           |
|----------------------------|-----------|
| Buried Chips and Resistors | Available |
|----------------------------|-----------|

|   |           |
|---|-----------|
| Resistance and Conductance Test Equipment | Available |
|---|-----------|

### Stack-Ups

#### Overall Thickness Range and Tolerances

|                         |                 |
|-------------------------|-----------------|
| Overall Board Thickness | 0.010" - 0.250" |
|-------------------------|-----------------|

#### Overall Board Thickness Tolerances

|          |   |
|----------|---|
| < 0.020" | Standard +/- 0.004"<br>Special +/- 0.003" |
|----------|---|

|        |   |
|--------|---|
| 0.031" | Standard +/- 0.004"<br>Special +/- 0.003" |
|--------|---|

|        |   |
|--------|---|
| 0.062" | Standard +/- 0.006"<br>Special +/- 0.004" |
|--------|---|

|        |   |
|--------|---|
| 0.093" | Standard +/- 0.009"<br>Special +/- 0.006" |
|--------|---|

|        |   |
|--------|---|
| 0.125" | Standard +/- 0.012"<br>Special +/- 0.009" |
|--------|---|

|        |   |
|--------|---|
| 0.187" | Standard +/- 0.018"<br>Special +/- 0.014" |
|--------|---|

|        |   |
|--------|---|
| 0.250" | Standard +/- 0.025"<br>Special +/- 0.018" |
|--------|---|

#### Thinnest Dielectric Finished

|                               |                                      |
|-------------------------------|--------------------------------------|
| Thin Board Overall Thickness: | 0.010" (2 Layer)<br>0.015" (4 Layer) |
|-------------------------------|--------------------------------------|

|                      |        |
|----------------------|--------|
| Thinnest Plated Core | 0.004" |
|----------------------|--------|

# Mechanical Capabilities

## Machining Drill Capabilities

|  |        |
|--|--------|
| Primary Drilled Hole Location Tolerance to Datum Zero (DTP)        | 0.005" |
| 2nd Drill Hole Location Tolerance to Datum Zero (DTP)              | 0.005" |
| Minimum Clearance from Copper Conductor to Mechanical Drilled Hole | 0.006" |
| Minimum Clearance from Copper Conductor to a Laser Drilled Hole    | 0.004" |

## Plated Through Hole Capabilities

|   |   |
|---|---|
| <b>Smallest Plated Through Hole Size with 0.001" Minimum Average Copper Requirement</b> |   |
| Finished Panel Thickness < 0.020"   | 0.003" Finished Hole                        |
| Finished Panel Thickness 0.031"   | 0.003" Finished Hole                        |
| Finished Panel Thickness 0.062"   | 0.004" Finished Hole                        |
| Finished Panel Thickness 0.093"   | 0.008" Finished Hole                        |
| Finished Panel Thickness 0.125"   | 0.010" Finished Hole                        |
| Finished Panel Thickness 0.187"   | 0.012" Finished Hole                        |
| Finished Panel Thickness 0.250"   | 0.018" Finished Hole (Excluding HAL Finish) |
| Plated Hole Size Tolerance  | +/- 0.003" Standard;<br>Special +/- 0.002"  |
| Plated Hole Size Press Fit Applications   | +/- 0.002" Typical                          |
| Aspect Ratio (with 0.010" Drill)  | 18:1 (0.007" Finish in 0.130" Thick)        |
| Plated Hole Spacing Minimum (Drilled Hole to Hole)                                      | 0.008"                                      |

## Non Plated Through Holes

|                                       |  |
|---------------------------------------|--|
| Smallest Non-Plated Hole Size         | 0.006"                                   |
| Largest Non-Plated Hole Size Routed   | No Limit                                 |
| Non-Plated Routed Hole Tolerance      | +/- 0.005" Typical<br>+/- 0.003" Special |
| Minimum NPTH to Edge of Board Spacing | 0.010"                                   |

## Blind/Buried Vias (Sequential Lamination)

|   |                             |
|---|-----------------------------|
| Minimum FINISHED Via Hole Diameter - Epoxy Filled | 0.008"                      |
| Maximum FINISHED Via Hole Diameter - Epoxy Filled | 0.02"                       |
| Maximum Aspect Ratio for Epoxy Filled Via Holes   | 10:1                        |
| Available Epoxy Fill Types                        | Conductive & Non-Conductive |

## HDI / Laser Microvia (µVia) Capabilities

|                                      |                                      |
|--------------------------------------|--------------------------------------|
| Smallest (as ablated) Laser Via      | 0.003"                               |
| Largest (as ablated) Laser Via       | 0.010"                               |
| Via Aspect Ratio (Depth to Diameter) | 0.75:1 Standard<br>1:1 Advanced      |
| Capture Pad Size                     | µVia +0.008" Std<br>µVia +0.006" Adv |
| Landing Pad Size                     | µVia +0.008" Std<br>µVia +0.006" Adv |
| Stacked Via                          | Yes                                  |
| Type I Capabilities                  | Yes                                  |
| Type II Capabilities                 | Yes                                  |
| Type III Capabilities                | Design Dependent                     |
| Copper Filled Microvia               | Yes                                  |

## Control Depth / Drill Capabilities

|  |                                   |
|--|-----------------------------------|
| Backdrill - PTH Stub Removal           | PTH + 0.010" Diameter (Typical)   |
| Minimum Backside Dielectric Separation | 0.005"                            |
| Minimum Back Drill Diameter            | 0.014"                            |
| Drill Depth Tolerance                  | 0.005" Typical,<br>0.004" Minimum |

## Scoring Capabilities

|                                 |  |
|---------------------------------|--|
| Angles                          | Standard 30° Available 20°, 45°, & 60° |
| Offset Tolerance                | +/-0.005"                              |
| Optimum Remaining Web Thickness | Typical Maximum 1/3 of thickness       |
| Remaining Web Tolerance         | +/-0.005"                              |
| True Position Tolerance         | +/-0.005"                              |

## Edge Connector Bevel Capabilities

|                       |                    |
|-----------------------|--------------------|
| Finger Tip Angle      | 15°, 20°, 30°, 45° |
| Bevel Depth Tolerance | +/-0.005"          |

## Profile Capabilities

|                               |  |
|-------------------------------|--|
| Standard Router Bit Diameter  | 0.093", 0.062", 0.031" (Router Bits) Special |
|                               | 0.021"                                       |
| Routed Profile Tolerance      | +/-0.005" Standard<br>+/-0.004" Special      |
| Minimum Internal Rout Radius  | 0.015"                                       |
| Minimum Routed PTH Slot Width | 0.022" Typical with 0.015" Minimum           |

100% U.S. Based Manufacturing

## Feature Size Capabilities

### Internal Layer Capabilities

#### Minimum Conductor Width and Spacing

Internal Starting Copper Weight 1/2 oz. 0.00275" Line / 0.003" Space

Internal Starting Copper Weight 1 oz. **6mil T/S**

Internal Starting Copper Weight 2 oz. 0.005" Line / 0.006" Space

Internal Starting Copper Weight 3 oz. 0.009" Line / 0.011" Space

Internal Starting Copper Weight 4 oz. 0.012" Line / 0.016" Space

### External Layer Capabilities

#### Minimum Conductor Width and Spacing

External Copper Finished Thickness 1.0 oz. 0.00275" Finished

External Copper Finished Thickness 1.5 oz. 0.004" Finished

External Copper Finished Thickness 2.0 oz. 0.005" Finished

External Copper Finished Thickness 3.0 oz. 0.009" Finished

External Copper Finished Thickness 4.0 oz. 0.011" Finished

External Copper Finished Thickness 5.0 oz. 0.020" Finished

External Copper Finished Thickness 6.0 oz. 0.030" Finished

External Copper Finished Thickness 7.0 oz. 0.045" Finished

External Copper Finished Thickness 8.0 oz. 0.060" Finished

#### Pad Diameter to Drilled Hole Size

#### IPC-6012 Class 2

Component Holes Drilled Size Plus 0.010"

Via Holes Drilled Size Plus 0.008"

#### Pad Diameter to Drilled Hole Size

#### IPC-6012 Class 3/3A

Component Holes Drilled Size Plus 0.012"

Via Holes Drilled Size Plus 0.010"

#### Pad Diameter to Laser Ablated Hole Size

Minimum Drilled Size Plus 0.004"

Standard Drilled Size Plus 0.008"

## Military

#### Etch Back

Yes

IPC Class 3 Etchback Specification 0.0002"-0.002"

## Solder Mask and Legend

### Solder Mask

Min. LPI Solder Mask Clearance (Standard) 0.002" / Side (Pad Size + 0.004")

Min. LPI Solder Mask Clearance (LDI Imaged) 1:1 (Design Dependent)

Pad Size Larger than NPTH 0.005" / Side (Pad Size + 0.010")

Web Between Surface Mount Pads 0.004" Preferred, 0.003 Minimum (Green)

Solder Mask Colors Green, Blue, Red, Black, Yellow, White, Orange, Purple, Pink, Brown, Clear, Matte Green & Matte Black

Solder Mask Type Liquid Photo Imageable  
Laser Direct Imaging (Special)

Min. Mask Defined Pad Diameter 0.005"

Solder Mask Plugged Vias Yes

### Legend

Printed Legend Minimum Stroke/Width 0.005"

LPI Legend Capability Yes

LPI Legend Minimum Stroke/Width 0.002"

Screened / LPI Legend Colors White, Black, Yellow, Red, Blue

Serialization / Unique Serialization Yes

## Surface Finish Options

### Surface Finish Selection

Hot Air Solder Level (Lead Free, Lead Based) Yes

Immersion Silver Yes

OSP Yes (Outsource)

Electroless Nickel Immersion Gold Yes

ENEPIG Yes (Outsource)

Immersion Tin Yes (Outsource)

Full Body Gold Yes

Bondable Gold Yes (Outsource)

Plated Nickel Yes

Electroless Nickel Yes

Copper Yes

Hot Oil Reflow Yes

### Mixed Finishes

HASL with Selective Gold Yes

Dual Gold Plating Yes

Immersion Gold with Selective Hard Gold Yes

Recessed Fingers Yes

## Via-in-Pad

|                                   |            |
|-----------------------------------|------------|
| Epoxy Filled Thru Hole Capability | Yes        |
| Epoxy Filled Thru Hole Minimum    | 0.008" FHS |
| Epoxy Filled Thru Hole Maximum    | 0.018" FHS |
| Minimum Board Thickness           | 0.020"     |
| Maximum Board Thickness           | 0.125"     |
| Via Fill Aspect Ratio             | 10:1       |
| Conductive VIP Options            | Yes        |
| Non-Conductive VIP Options        | Yes        |

## Testing Capabilities

|   |               |
|---|---------------|
| Minimum Test Continuity Resistance        | .1 Ohms       |
| Maximum Test Voltage                      | 1000 Volts    |
| Maximum Test Isolated Resistance          | 25 Mohm-2Gohm |
| Largest Test - Fixtured                   | 16" x 22"     |
| Largest Test - Flying Probe               | 27" x 24"     |
| Electrical Test Pitch (Fixture Test)      | 0.020"        |
| Electrical Test Pitch (Flying Probe Test) | 0.004"        |
| DC Line Resistance Testing                | Yes           |

## Data & Documentation

### Tooling Formats

|                         |   |
|-------------------------|---|
| Film Data Formats       | DXF, RS-274-x,<br>RS-274-D,<br>ODB++                |
| Drill Data formats      | ASCII, Excellon<br>Format;<br>RS-274-X,<br>RS-274-D |
| Electrical Test Formats | IPC-D356  |
| Netlist Compare Formats | IPC-D356<br>IPC-D356A                               |

### Tooling Communication

|                               |                              |
|-------------------------------|------------------------------|
| Compression Formats           | ZIP, TAR, TGZ                |
| Secured Data Transfer Methods | Secure Data<br>Transfer, PGP |

The information provided in this sheet is subject to change without prior notice.

## Electrical Performance

|  |                              |
|--|------------------------------|
| TDR Test Tolerance (Print and Etch)          | Standard 10%,<br>Advanced 5% |
| TDR Test Tolerance (Plated Copper)           | Standard 10%,<br>Advanced 5% |
| TDR Test Tolerance Differential Measurements | Standard 10%,<br>Advanced 5% |
| TDR Tolerance Single Ended Tolerance         | Standard 10%,<br>Advanced 5% |
| HiPot Testing (AC & DC)                      | Yes                          |

## Quality Systems & Certifications

DOD Contracts | MIL-PRF-31032 | MIL-PRF-55110G  
AS9100C & ISO 9001:2008 Certified | JCP Registered  
IPC-6012 Class 2/3A Qualified | ITAR Registered  
UL Certified

*Leading the PCB Industry in Quality & Innovation*

### Tempe Division

229 S. Clark Drive  
Tempe, AZ 85281  
Phone: (800)678-0233  
Fax: (480)966-5896

### Aurora Division Corporate Headquarters

21101 E. 32nd Pkwy  
Aurora, CO 80011  
Phone: (800)979-4722  
Fax: (888)224-3291

### Maple Grove Division

8860 Zachary Lane North  
Maple Grove, MN 55369  
Phone: (763)424-3788  
Fax: (763)425-0999
